Sweet Land of Liberty is Thomas J. Sugrue's epic account of the abiding quest for racial equality in states from Illinois to New York, and of how the intense northern struggle differed from and was

inspired by the fight down South. Sugrue's panoramic view sweeps from the 1920s to the present—more than eighty of the most decisive years in American history. He uncovers the forgotten stories of battles to open up lunch counters, beaches, and movie theaters in the North; the untold history of struggles against Jim Crow schools in northern towns; the dramatic story of racial conflict in northern cities and suburbs; and the long and tangled histories of integration and black power. Filled with unforgettable characters and riveting incidents, and making use of information and accounts both public and private, such as the writings of obscure African American journalists and the records of civil rights and black power groups, Sweet Land of Liberty creates an indelible history. From the author of 'The Arctic Fox' and 'Lily Dragon', this novel is set in Africa and tells of a child's special relationship with elephants. A jagged series of events written with gritty realism. The Elephant Tree transcends stereotypes and challenges the reader's sense of morality, with shocking plot twists and vivid characters. Ecosystems today are dynamic and complex, leaving conservationists faced with the paradox of conserving moving targets. New approaches to conservation are now required that aim to conserve ecological function and process, rather than attempt to protect static snapshots of biodiversity. To do this effectively, long-term information on ecosystem variability and resilience is needed. While there is a wealth of such information in palaeoecology, archaeology, and historical ecology, it remains an underused resource by conservation ecologists. In bringing together the disciplines of neo- and palaeoecology and integrating them with conservation biology, this novel text illustrates how an understanding of long-term change in ecosystems can in turn inform and influence their conservation and management in the Anthropocene. By looking at the history of traditional management, climate change, disturbance, and land-use, the book describes how a long-term perspective on landscape change can inform current and pressing conservation questions such as whether elephants should be culled, how best to manage fire, and whether ecosystems can or should be "re-wilded" Biodiversity Conservation and Environmental Change is suitable for senior undergraduate and post-graduate students in conservation ecology, palaeoecology, biodiversity conservation, landscape ecology, environmental change and natural resource management. It will also be of relevance and use to a global market of conservation practitioners, researchers, educators and policy-makers. Elephant Small is loath to go to bed since he isn't tired, but he soon changes his mind when Elephant Mum finds his huggy thing and tells him a bedtime story. With full colour illustrations by Andy Ellis. In the TODDLER BOOKS series. First published in hardback in 1998, a title in the TODDLER BOOKS series in which Elephant Small is scared of water and doesn't like bathtime at all, but Elephant Mum soon persuades him that bathtime is fun. Illustrated by Andy Ellis. An outstanding new voice in memoir, Christine Herbert takes the reader on a "time-machine tour" of her Peace Corps volunteer service as a health worker and educator from 2004-2006 in Zambia. Rather than a retrospective, this narrative unfolds in the present tense, propelling the reader alongside the memoirist through a fascinating exploration of a life lived "off the grid." At turns harrowing, playful, dewy-eyed and wise, the author's heart and candor illuminate every chapter, whether she is the heroine of the tale or her own worst enemy. Even at her most petulant, the laugh-out-loud humor scuppers any "white savior" mentality and lays bare the undeniable humanity-and humility-of the storyteller. Through it all, an undeniable love for Zambia-its people, land and culture-shines through. A must-read for the armchair adventurer, a book about Zambia - a personal Peace Corps Memoir. Sharks are very big and strong. They are fast and hungry, too. Sometimes little animals are stronger than big animals. Do you know how a little animal could help a big animal? Reading Level 14/F&P Level H "THERE'S AN ANGEL IN THE CHIMNEY!" Mrs. O'Callaghan had come up with some pretty farfetched notions, but when she came running to Mr. White with this announcement, he was convinced she'd lost all touch with reality. Yet when the sensible English writer—whose only mistake had been to set up his workshop on the O'Callaghan's rundown Irish farm—ventured

*into the kitchen to see what had so upset his landlady, he was shocked to discover that the Archangel Michael had come down the chimney and was hovering there, waiting to pass on a message of deep significance: There was going to be a Flood, and it was up to the O'Callaghans and Mr. White to build an Ark just the way Noah had. Well, maybe not exactly the way Noah had. After all, Mr. White didn't have the same kind of help to work with. Still, he'd find a way to manage, and a way to start the world again too—even though he'd always been a confirmed bachelor. He'd do it all—as long as he didn't have to save the elephants and the kangaroos! From T. H. White, best-selling author of *The Sword and the Stone*, *The Once and Future King*, and *The Book of Beasts*, comes this long unavailable satirical fantasy of twentieth-century Ireland. First published in 1947, *The Elephant and the Kangaroo* is something of a modern-day *Gulliver's Travels*, exploring an English writer's journey through a land at once familiar and alien, as he answers an Almighty challenge to save a world which he's not sure is really worth preserving. And it doesn't take him long to find out that building an ark just isn't as easy as it used to be.... "A STINGING COMMENTARY...A MAD FLIGHT OF FANCY."—Kirkus "HILARIOUSLY FUNNY."—Library Journal*

In The Empty Ocean, acclaimed author and artist Richard Ellis tells the story of our continued plunder of life in the sea and weighs the chances for its recovery. Through fascinating portraits of a wide array of creatures, he introduces us to the many forms of sea life that humans have fished, hunted, and collected over the centuries, from charismatic whales and dolphins to the lowly menhaden, from sea turtles to cod, tuna, and coral. Rich in history, anecdote, and surprising fact, Richard Ellis's descriptions bring to life the natural history of the various species, the threats they face, and the losses they have suffered. Killing has occurred on a truly stunning scale, with extinction all too often the result, leaving a once-teeming ocean greatly depleted. But the author also finds instances of hope and resilience, of species that have begun to make remarkable comebacks when given the opportunity. Written with passion and grace, and illustrated with Richard Ellis's own drawings, *The Empty Ocean* brings to a wide audience a compelling view of the damage we have caused to life in the sea and what we can do about it. " From the bestselling author of *The Lioness of Morocco* comes the beguiling novel of a young woman trapped between the expectations of her family and the desire to live free. *Ceylon, 1803*. In the royal city of Kandy, a daughter is born to the king's elephant keeper--an esteemed position in the court reserved only for males. To ensure the line of succession, Phera's parents raise her as a boy. As she bonds with her elephant companion, Siddhi, Phera grows into a confident, fiercely independent woman torn between the expectations of her family and her desire to live life on her own terms. Only when British colonists invade is she allowed to live her true identity, but when the conquerors commit unspeakable violence against her people, Phera must add survival to the list of freedoms for which she's willing to fight. Possessed by thoughts of revenge yet drawn into an unexpected romance with a kindly British physician, the elephant keeper's daughter faces a choice: Love or hatred? Forgiveness or retribution? *Imagining the Elephant* is a biography of Allan MacLeod Cormack, a physicist who was awarded the Nobel Prize for Medicine in 1979 for his pioneering contributions to the development of the computer-assisted tomography (CAT) scanner, an honor he shared with Godfrey Hounsfield. A modest genius who was also a dedicated family man, the book is a celebration of Cormack's life and work. It begins with his ancestral roots in the far north of Scotland, and then chronicles his birth and early years in South Africa, his education at the University of Cape Town (UCT) and Cambridge University, and his subsequent academic appointments at UCT and Tufts University in Boston, USA. It details his discovery of the problem at Cape Town in 1956, traces his scientific footsteps all the way to Stockholm in December 1979, and then extends the odyssey to his pursuits beyond the Nobel Prize. A classic tale by Newbery Medalist Kate DiCamillo, America's beloved storyteller -*The New York Times Book Review* (Ages 8-13) When a fortuneteller's tent appears in the market square, orphan Peter Augustus Duchene knows the questions that he needs to ask: Does his sister still live?

And if so, how can he find her? The mysterious answer (an elephant! An elephant will lead him there!) sets off a remarkable chain of events. With atmospheric illustrations by Yoko Tanaka, here is a captivating tale that could only be narrated by Newbery Medalist Kate DiCamillo. In this timeless fable, she evokes the largest of themes -hope and belonging, desire and compassion- with the lightness of a magician's touch. "An enthralling and luminous play" about the nineteenth-century man whose physical deformity doomed him to the life of an outcast: "haunting [and] splendid" (The New York Times). The Elephant Man is based on the life of John Merrick, who lived in London during the latter part of the nineteenth century. A horribly deformed young man, a freak attraction in traveling side shows, is found abandoned and helpless and is admitted for observation to Whitechapel, a prestigious London hospital. Under the care of a famous young doctor who educates him and introduces him to London society, Merrick changes from a sensational object of pity to the urbane and witty favorite of the aristocracy and literati. But his belief that he can become a man like any other is a dream never to be realized. After premiering in London, The Elephant Man went on to Broadway where it won the Tony for Best Play in 1979. It was later revived in a Broadway production starring Bradley Cooper. "The Elephant Man is a moving drama. Lofted on poetic wings, it nests on the human heart." —Time Magazine In this stunning debut novel, two very different characters—a black boy who loses his home in Hurricane Katrina and a white boy in Vermont who loses his best friend in a tragic accident—come together to find healing. A hurricane, a tragic death, two boys, one marble. How they intertwine is at the heart of this beautiful, poignant book. When ten-year-old Zavion loses his home in Hurricane Katrina, he and his father are forced to flee to Baton Rouge. And when Henry, a ten-year-old boy in northern Vermont, tragically loses his best friend, Wayne, he flees to ravaged New Orleans to help with hurricane relief efforts—and to search for a marble that was in the pocket of a pair of jeans donated to the Red Cross. Rich with imagery and crackling with hope, this is the unforgettable story of how lives connect in unexpected, even magical, ways. "In Smith's poetic hands, this poignant story barrels across the pages and into the reader's heart, reminding us that magic can arise from the deepest tragedy." —Kathi Appelt, Newbery Honor Award winner and two-time National Book Award Finalist This charming new children's story by award-winning author Sherry Ellis won't just entertain kids with its hilarious descriptions and zany main character. It will also educate them about the alphabet and help them learn the order of letters. As the elephant works his way through foodstuffs, each new dish features a new letter of the alphabet. From animal crackers to zebra cakes, the elephant is enthusiastic to gobble everything up, even when it lands him in hot water! The narrator starts off by warning the readers that you should never, ever feed the elephant, even if he says, "Pretty please with sugar on top!" Everything the elephant eats just ends up turning into a huge mess. He'll give you gooey chocolate kisses after eating brownies, fire animal crackers out of his trunk, and juggle eggs and French fries at the same time. The elephant is more interested in throwing hamburgers like Frisbees and using noodles as jump ropes than having a proper meal. You can't stay mad at him for too long, however. His adorable antics will entertain both you and all the little elephants you share them with! What is in the shoe? Anything you can imagine! Is it an elephant or not? Find out for yourself in this fun little story. This is the first book of a wacky series that secretly discourages

This sweet story, with its heartwarming photographs, explores the challenges and joys of family, love, and growing up, and is a perfect bedtime tale. When it first comes, grief is as large as an elephant, but with time it becomes smaller, and easier to deal with until finally you can let it go and just remember. Once, elephants came in two colours: black or white. They loved all other creatures - but each set wanted to destroy the other. Peace-loving elephants ran and hid in the deepest jungle while battle commenced. The war-mongers succeeded: for a long time it seemed that there were no elephants in the world at all, not of any colour. But then the descendants of the peace-loving ones emerged from the jungle, and by now they were all grey. 'This book was one of my favourites as a kid, I simply relished in the gloriousness of a load of elephants battling it out in a bizarre forest. It wasn't until I was a bit older that I recognised the importance of the message that lay (not so subtly) underneath.'

OLIVER JEFFERS After a parrot makes fun of Sooki's big ears, long nose, and wrinkled skin, the "saggy baggy" elephant isn't too sure of himself. But once he meets some beautiful creatures who look just like him, Sooki celebrates with a joyful "one-two-three-kick." For over 50 years, parents and children have treasured this tale, with gorgeous art by Gustaf Tenggren, the illustrator of The Poky Little Puppy. In this companion volume to The Universe Next Door, James W. Sire offers his refined definition of a worldview and addresses key questions about the history of worldview thinking, the existential and intellectual formation of worldviews, the

public and private dimensions of worldviews and how worldview thinking can help us navigate an increasingly pluralistic universe. Inspired by the real life experiences of a Sudanese boy, follows Jacob Akech Deng's journey as he flees his home under the threat of war, and, guided by the memory of his mother, tries to survive in a refugee camp. Photographs and text document the lives of eight baby orphaned elephants and their surrogate human "mothers" over a two year period at the Nairobi National Park in Kenya, East Africa. This revealing biography of a pioneering photojournalist and social reformer Jacob Riis shows how he brought to light one of the worst social justice issues plaguing New York City in the late 1800s--the tenement housing crisis--using newly invented flash photography. Jacob Riis was familiar with poverty. He did his best to combat it in his hometown of Ribe, Denmark, and he experienced it when he immigrated to the United States in 1870. Jobs for immigrants were hard to get and keep, and Jacob often found himself penniless, sleeping on the streets or in filthy homeless shelters. When he became a journalist, Jacob couldn't stop seeing the poverty in the city around him. He began to photograph overcrowded tenement buildings and their impoverished residents, using newly developed flash powder to illuminate the constantly dark rooms to expose the unacceptable conditions. His photographs inspired the people of New York to take action. Gary Kelley's detailed illustrations perfectly accompany Alexis O'Neill's engaging text in this STEAM title for young readers. A book to challenge the status quo, spark a debate, and get people talking about the issues and questions we face as a country!
