Skillfully acquisitions and collection development plays a key
role in creating exceptional libraries. These authoritative
resources provide the guidance you need to build and maintain
the comprehensive, high-quality collection your customers

demand. Get expert advice on: a- selecting material from serial to CD-ROMs; b- participating effectively in the budget process; and c- evaluating your existing collections and vendors.

Developed by ALA's Association for Library Collections & Technical Services, this blueprint for a collection-development training program can be easily adapted to meet the collection management goals and organizational structures found in libraries of all types and sizes. Outlines for training are given in these areas, among many others: collection and development policies; selection and review processes; weeding and deselection; and navigating electronic networks. The guide divides training into three skill levels, supplies a curriculum framework matched to collection duties, and identifies competencies achievable after training.

Modern Book Collecting offers advice that answers all the basic questions a book lover and collector might have—what to collect and where to find it, how to tell a first edition from a reprint, how to build an author collection, how to get the best price from dealers, how to understand the prices and rarity of books, and more. With a handy dictionary of terms used in auction and dealer catalogs and a new section on Internet resources, this is a must-have guide for book lovers. "The Rockhounding Bible is the most complete guide to finding, identifying, collecting, and selling precious gems, minerals, geodes, and fossils. It includes everything from where to find them to how to identify them. Plus, it provides tips on collecting and caring for your treasures. With this book in hand, you will be able to explore the world of rocks and minerals like never before and be able to identify new specimens with ease, and add beautiful treasures to your collection"-- Amazon. Buy the Paperback version of this book and get the eBook version included for FREE

A lot of people are unknowingly throwing away potentially thousands of dollars because they don't know how to evaluate what the coins in their pockets are worth. You can avoid this mistake. Just

imagine what you could do with all that extra cash.

Numismatism is a world of coin collecting. Coin collectors can be found in all corners of the world. Coin collecting is a lot more than just understanding what coins are required in order to complete a certain set. By diving into the world coin collecting, you are likely to learn more about history than you ever did in your history classroom. Each coin has a story behind it. There are many reasons to take up coin collecting. You may just wish to develop your collection of rare coins over time which will fill you with a sense of pride each time you think of it. You may, on the other hand, wish to supplement your income by selling certain coins. Either way, this book is for you if you have read this far. In this book, you can expect to learn about: -The terms you need to know to navigate the world of coin collecting -How to get started -How to evaluate coins -How to Look after the coins -How to connect with other like-minded collectors -And a lot more! Even if you never cared much for coin collecting, it's worth giving it a shot since it is so easy to start and you can easily end up being more interested than you expected, and after that is just a matter of time until you achieve your coin collecting goals. If you are ready to jump right into the world of coin collecting, then scrolling over to the BUY button and clicking it is the first step. This book contains a complete list of children's works by over 200 collectable authors and illustrators, and provides help in identifying the collectable editions of all the works listed. It also includes a guide to the value of every first edition. When Charlie brings a box of his grandpa ' s old coins to school, his classmates want to learn all about collecting coins and other currency. Join them as they learn how the idea of money started and the strange things people used before they invented metal coins and paper bills. Find out how coins are made, what secrets can be found on a dollar bill, and how to start your own coin collection. Meanwhile, you ' ll learn some fascinating facts about the history and culture

of currency from countries all over the world. With this book, you ' ll be well on your way to being a knowledgeable numismatist. From Carolina Soul Records, one of the world's largest online record sellers, comes the definitive guide to every aspect of record collecting in the digital era. Any music fan knows that there's nothing like the tactile pleasure of a record. Even with access to a variety of streaming services, digital technology has paved the way for the analog revival; from multiplatinum megahits to ultra-obscure private presses, millions of records are available for purchase from all over the world. Vinyl Age is the ultimate post-internet guide to record collecting. Written by Max Brzezinski of Carolina Soul Records, one of the world's largest high-end record dealers, Vinyl Age combines an engaging narrative and incisive analysis to reveal the joys and explain the complexities of the contemporary vinyl scene. Brzezinski demystifies the record game and imparts the skills essential to modern record digging -- how to research, find, buy, evaluate, and understand vinyl in the twenty-first century. "Book Collecting: A Guide for Amateurs" by J. Herbert Slater. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten – or yet undiscovered gems – of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format. Over 2000 thimbles illustrated in full color, with a detailed their history. Seen in the context of the lives of the women who used them, thimbles offer a glimpse into the private, domestic world that history books often overlook. A value guide plus helpful, practical tips on cataloging, maintenance, and display, and a list of thimble collectors' organizations throughout the world make this a wonderful collector's guide. A popular collector ' s guide to

discovering the world of unusual, rare, and dazzlingly retro watches. What you wear on your wrist can be more than merely functional. Eschewing the common categories of the “ classics, ” the ostentatiously high-priced, and the “ blingy, ” this book brings together individualist pieces that few have seen and even fewer own. Retro Watches is a collector ’ s guide for those who want to make a statement with the watch they wear, but who are looking for something a little different. It collects the most intriguing, visually striking, and out-there watch designs from little-known but influential watch brands, along with overlooked but brilliant pieces from the major players. Over one hundred watch models are featured, specially photographed for the book and accompanied by accessible, informative texts discussing the watch ’ s design, history, and intriguing features, as well as info panels detailing rarity, value, and other key attributes.

Additional breakout spreads dive into the cultural and fashion history of watch design and the many innovations of the ’ 60s, ’ 70s, and ’ 80s. Beautifully presented, Retro Watches is the volume for the watch wearer who wants to stand out from the crowd. Like fine wine, books become better with age. This title is an incredible source to the current values of thousands of titles, from the old and rare to the more modern. Photos throughout. A beginner's guide on how to start your own art collection on any budget—to create a unique home that reflects your individual style. A work of art—whether it is unexpected, groundbreaking, or one of a kind—can personalize your interior and transform it into a place like no other. But actually purchasing a signature piece—or even crossing the threshold into a gallery—can be a daunting act. How can you develop your own taste or gauge whether you ’ re making a worthwhile investment? Drawing on a decade of experience at Christie ’ s, Olivia de Fayet and Fanny Saulay know that the world is full of artistic talents waiting to be discovered and they want to reframe who can access original works. On a mission to make

art accessible to everyone, they compiled their advice into this step-by-step guide that takes the guesswork out of purchasing, guiding amateurs to cultivate an eye and to select favorite pieces. They cover everything you need to know about starting your own collection, from how to find artists and galleries to how to define your collection, along with advice on purchasing, framing, hanging, maintaining, and conserving the value of your artworks. With tips for designing unique interiors with paintings, sculptures, photographs, and other decorative objects, this essential book will give art aficionados the confidence to select pieces they will love forever. Even if this is your first time in the world of coin collection, this book will break down the topic in simple language to ensure you have an easy time putting what you learn into action! Scroll up and click Buy Now With 1-Click or Buy Now to get started!

Paper money in small denominations was a direct result of the Civil War. These color notes saw duty at all the major battlefields of the war, and this kind of money was soon adopted by the public. The issuance of paper money helped save the economy of the North by making it possible to do everyday business without metal coins. This book offers an introduction

to collecting antiques, brought to life by one of the longest-serving members of the BBC's Antiques Roadshow team. It provides an invaluable introduction to the different collecting areas, ranging from furniture to ceramics, silver to glass. Eric Knowles describes the items available to the amateur collector and enthusiast, and how to get started. Organized by genre, the book introduces each category's major stylistic eras, telling the reader what to look out for. Each item has been valued by Eric, and examples from all price ranges are included, enabling readers to see both affordable objects and those that may be out of budget but nevertheless of interest in developing knowledge and understanding. Throughout the book, Eric has selected examples to illustrate at a larger size, with detailed annotation. These help the reader to learn more about a chosen topic, identify the typical, appreciate the extraordinary, and understand why some pieces are worth so much more than others. Specifically for first time collector, covers important topics from basics of equipment through serious interest in philately. Some of the very earliest European references to playing-cards are from Spanish sources. This book describes the playing-cards from the earliest fourteenth-century records to the present day. For much of that time, the austere gambler's card has been supplemented by an enormous range of other types whose dominant intention has been to entertain, inform or advertise. From seemingly crude and simple woodcut designs to the most florid of 'baroque' ornamentation to the brightly coloured modern styles of the late twentieth century, all are here dealt with fully, and their histories clearly differentiated to emphasise their divergent roles. This book provides a wide range of illustrations of all these types. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original

copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.
