Nowhere is Perfect Dec 13 2021 "Utopian imaginings undoubtedly satisfy a desire for fantasy and escape. At the same time, however, they are generally anchored in the real world, whose shortcomings they criticise, implicitly or explicitly, and for which they purport to offer solutions. The creation of perfect imaginary worlds therefore serves as a means of acting on the imperfect present. This is a particular feature of French utopian writing, whose rich tradition continues to grow, inspiring authors from all parts of the Francophone world. As the essays in this volume demonstrate, the utopian - and dystopian - imaginings which constitute that tradition find expression through all genres and modes of creation. What they have in common, though, is a dissatisfaction with contemporary society and a determination to explore possibilities for a better life."--BOOK JACKET.

**The Nowhere Girls** May 18 2022 "A call-to-action to everyone out there who wants to fight back." —Bustle "Scandal, justice, romance, sex positivity, subversive anti-sexism—just try to put it down." —Kirkus Reviews (starred review) "Cuts straight to the core of rape culture—masterfully fierce, stirring, and deeply empowering." —Amber Smith, New York Times bestselling author of *The Way I Used to Be* Three misfits come together to avenge the rape of a fellow classmate and trigger a change in the misogynist culture at their high school transforming the lives of everyone around them in this searing and timely story. Who are the Nowhere Girls? They're everygirl. But they start with just three: Grace Salter is the new girl in town, whose family was run out of their former community after her southern Baptist preacher mom turned into a radical liberal after falling off a horse and bumping her head. Rosina Suarez is the queer punk girl in a conservative Mexican immigrant family, who dreams of a life playing music instead of babysitting her gaggle of cousins and waitressing at her uncle's restaurant. Erin Delillo is obsessed with two things: marine biology and *Star Trek: The Next Generation*, but they aren't enough to distract her from her suspicion that she may in fact be an android. When Grace learns that Lucy Moynihan, the former occupant of her new home, was run out of town for having accused the popular guys at school of gang rape, she's incensed that Lucy never had justice. For their own personal reasons, Rosina and Erin feel equally deeply about Lucy's tragedy, so they form an anonymous group of girls at Prescott High to resist the sexist culture at their school, which includes boycotting sex of any kind with the male students. Told in alternating perspectives, this groundbreaking novel is an indictment of rape culture and explores with bold honesty the deepest questions about teen girls and sexuality.

*Everywhere and Nowhere* Apr 05 2021 A fascinating analysis of anonymous publication centuries before the digital age Everywhere and Nowhere considers the ubiquity of anonymity and mediation in the publication and circulation of eighteenth-century British literature—before the Romantic creation of the “author”—and what this means for literary criticism. Anonymous authorship was typical of the time, yet literary scholars and historians have been generally unable to account for it as anything more than a footnote or curiosity. Mark Vareschi shows the entangled relationship between mediation and anonymity, revealing the nonhuman agency of the printed text. Drawing richly on quantitative analysis and robust archival work, Vareschi brings together philosophy, literary theory, and media theory in a trenchant analysis, uncovering a history of textual engagement and interpretation that does not hinge on the known authorial subject. In discussing anonymous poetry, drama, and the novel along with anonymously published writers such as Daniel Defoe, Frances Burney, and Walter Scott, he unveils a theory of mediation that renews broader questions about agency and intention. Vareschi argues that textual intentionality is a property of nonhuman, material media rather than human subjects alone, allowing the anonymous literature of the eighteenth century to speak to contemporary questions of meaning in the philosophy of language. Vareschi closes by exploring dubious claims about the death of anonymity and the reexplosion of anonymity with the coming of the digital. Ultimately, Everywhere and Nowhere reveals the long history of print anonymity so central to the risks and benefits of the digital culture.

*Approaching Nowhere* Feb 15 2022 Evocative images of buildings and places, seen from the American road. Like many who grew up during the spread of sprawl—with its predictable landscape of housing developments, shopping malls, interstate highways, and big-box construction--acclaimed photographer Jeff Brouws is drawn to places that still embody the vernacular past as well as to those that starkly portray the soulless, franchised American landscape. What began as cultural geography of Main Streets became a visual critique of the myth of upward mobility that created this car-centered, paved-over universe. Some images look outward to the edges of suburbia where sprawl is encroaching upon nature. Others turn inward, documenting the devastated inner cities. All the stunning color photographs reflect the complex beauty and desolation of visual life in our time.

**Nowhere Near Normal** Mar 04 2021 In the bestselling tradition of Augusten Burroughs, a compassionate, witty, and completely candid memoir that chronicles growing up with obsessive-compulsive disorder. When all the neighborhood kids were playing outdoors, seven-year-old Traci Foust was inside making sure the miniature Catholic saint statues on her windowsill always pointed north, scratching out bald patches on her scalp, and snapping her fingers after every utterance of the word God. As Traci grew older, her OCD blossomed to include panic attacks and bizarre behaviors, including a fear of the sun, an obsession with contracting eradicated diseases, and the idea that she could catch herself on fire just by thinking about it. While stints of therapy -- and lots of Nyquil -- sometimes helped, nothing alleviated the fact that her single mother and mid-life crisis father had no idea how to deal with her. Traci Foust shares her wacky and compelling journey with brutal honesty, from becoming a teenage runaway on the poetry slam beat in the hippie beach towns of Northern California to living at a family-owned nursing home, in a room with a seventy-five-year-old WWII Vet who kept mistaking her for a prostitute. In this funny, frenetic, and wonderfully dark-humored account of her struggles with a variety of psychological disorders, Traci ultimately concludes that there is nothing special about being “normal.”

**An Empire Nowhere** Feb 21 2020 What caused England's literary renaissance? One answer has been such unprecedented developments as the European discovery of America. Yet England in the sixteenth century was far from an expanding nation. Not only did the Tudors lose England's sole remaining possessions on the Continent and, thanks to the Reformation, grow spiritually divided from the Continent as well, but every one of their attempts to colonize the New World actually failed. Jeffrey Knapp accounts for this strange combination of literary expansion and national isolation by showing how the English made a virtue of their increasing insularity. Ranging across a wide array of literary and extraliterary sources, Knapp argues that English poets rejected the worldly acquisitiveness of an empire like Spain's and took pride in England's material limitations as a sign of its spiritual strength. In the imaginary worlds of such fictions as Utopia, The Faerie Queene, and The Tempest, they sought a grander empire, founded on the "otherworldly" virtues of both England and poetry itself. Citizens of Nowhere Jan 14 2022 An inspiring story of courage, adaptation and determination — a year in the life of 11 refugee students entering universities across Canada. "Most journalists have stories they never forget. This is mine." When Debi Goodwin travelled to the Dadaab Refugee Camp in 2007 to shoot a documentary on young Somali refugees soon coming to Canada, she did not anticipate the impact the journey would have on her. A year later, in August of 2008, she decided to embark upon a new journey, starting in the overcrowded refugee camps in Kenya, and ending in university campuses across Canada. For a year, she recorded the lives of eleven very lucky refugee students who had received coveted scholarships from Canadian universities, guaranteeing them both a spot in the student body and permanent residency in Canada. We meet them in the overcrowded confines of a Kenyan refugee camp and track them all the way through a year of dramatic and sometimes traumatic adjustments to new life in a foreign country called Canada. This is a snapshot of a refugee's first year in Canada, in particular a snapshot of young men and women lucky and smart enough to earn their passage from refugee camp to Canadian campus.

Pilgrimage to Nowhere Jan 22 2020 *Pilgrimage to Nowhere: Coming of Age (1956-59)* is the story of Nick Pappas, born an American citizen in Greece on the eve of World War II. Raised in Chicago's Greek ghetto, Nick is the eternal immigrant – with one foot in Greece and the other in America. In 1956, now a drop-out from high school, Nick is talked into joining the Air Force and the rebel becomes an Air Policeman, the symbol of authority in the occupied lands of the Philippines. He meets and eventually falls in love with a native Filipino, Helena. When his actions impact on others, the rebel learns that there is always some price to pay. The adventures of this young man, coming of age in a foreign land, become a moral pilgrimage. AUTHOR BIO: Pete was born an American citizen in war-torn Greece and came to America in 1946. **Home from Nowhere** Jun 19 2022 In his landmark book *The Geography of Nowhere* James Howard Kunstler visited the "tragic sprawlscapes of cartoon architecture, junked cities, and ravaged countryside" America had become and declared that the deteriorating environment was not merely a symptom of a troubled culture, but one of the primary causes of our discontent. In *Home from Nowhere* Kunstler not only shows that the original American Dream -- the desire for peaceful, pleasant places in which to work and live -- still has a strong hold on our imaginations, but also offers innovative, eminently practical ways to make that dream a reality. Citing examples from around the country, he calls for the restoration of traditional architecture, the introduction of enduring design principles in urban planning, and the development of public spaces that acknowledge our need to interact comfortably with one another.

Nowhere with You Mar 28 2023 Joel Plaskett has earned an awful lot of honourifics in his career so far, counting folk hero, indie darling, and national treasure among them. And that's just since the Halifax musician started making records of his own in 1999. For a decade before that, he was one-quarter of Thrush Hermit, a band of scrappy Superchunk mimics who became hard-rock revivalists and one of the last survivors of the '90s pop "explosion" of major-label interest in Halifax. Canada's east coast has never been much of a pop-culture mecca. Most musicians from the region who've ever made it big moved away. But armed with a stubborn streak and a knack for great songwriting, Plaskett has kept Halifax as his home, building both a career and a music community there. Along the way, he's earned great respect: when he plays shows in Alberta, east-coast expats literally thank him for staying home. *Nowhere With You* is the study of how he pulled this off, from the origins of Canada's east-coast exodus to Plaskett's anointment as "Halifax's Rick Rubin." It's a story about what happens when you call a city "the new Seattle," about the lessons you learn playing to empty rooms in Oklahoma, and about defying radio-single expectations with rock operas and triple records. It's about doing what you want, where you want, no matter how much work it takes.

And the only thing more dangerous than a madman is a killer who's ruthlessly sane. Racing to predict the next target, September finds herself drawn into a harrowing and deeply personal case. For this time, there are no innocents—only the one who kills, and those condemned to die...
