Accreditation coordinators, accreditation specialists, survey coordinators, Joint Commission survey coordinators, performance improvement chapter leaders, quality directors, quality

improvement professionals Earn Continuing Education Credits National Association for Healthcare Quality (NAHQ) This activity is pending approval by the National Association of Healthcare Quality for CE credits. This book gives useful advice from experts in the field about how to create a culture of safety that leads to an interactive relationship between the patient and their family members and the caregiver so that quality and safety improve. It provides caregivers with methods for improving connections with patients and families by prompting patients with meaningful questions, improving their own listening skills, assessing patient learning needs, and providing patients with the tools to become a partner on the health care team [Ed.] Hospitals must meet certain conditions of participation established by the Centers for Medicare & Medicaid Services (CMS) in order to receive Medicare payments. In 2003, most hospitals-over 80 percent-demonstrated compliance with most of these conditions through accreditation from the Joint Commission on Accreditation of Healthcare Organizations (Joint Commission). Established in 1986, Joint Commission Resources, Inc. (JCR), a nonprofit affiliate of the Joint Commission, provides consultative technical assistance services to hospitals. Both organizations acknowledge the need to ensure that JCR's services do not-and are not perceived to-affect the independence of the Joint Commission's accreditation process. GAO was asked to provide information on the relationship between the Joint Commission and JCR. This report describes (1) their organizational relationship, and (2) the significant steps they have taken to prevent the improper sharing of information, obtained through their accreditation and consulting activities, respectively, since JCR was established. GAO Joint Commission International Accreditation Standards for Hospitals, 4th Edition provides the basis for accreditation of hospitals throughout the world, supplying organizations with the information they need to pursue or maintain patient safety, performance improvement, and accredited status starting 1 January 2011. Important improvements to this edition include the following: \* Improve the Safety of High-Alert Medications, A International Patient Safety Goal 3 (IPSG.3), covers all high-alert medications used by the organization. \*The Access to Care and

Continuity of CareA chapter (ACC) has new requirements on the need to stabilize emergency patients prior to transfer to another organization and the need to strengthen the integration of outpatient information for patients provided ongoing care from multiple clinics. \*The Patient and Family RightsA chapter (PFR) introduces a requirement that the organization offers or facilitates second opinions when requested by the patient. \*The Assessment of PatientsA chapter (AOP) includes a new requirement regarding timely reporting of critical laboratory test results.\*The Quality Improvement and Patient SafetyA chapter (QPS) has expanded requirements on comprehensive risk management framework as a tool for the reduction of adverse events and two new standards are intended to focus organizations on the quality of the data they collect and use in their improvement activities. \*The Prevention and Control of InfectionsA chapter (PCI) expands requirements regarding the reuse of single-use devices. \*The Governance, Leadership, and DirectionA chapter (GLD) calls for greater oversight of organizational contracts and independent practitioners, as well as establishing a framework for ethical management to ensure that patient care is provided within business, financial, ethical, and legal norms and that protects patients, their families, and employees This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it.
