The eminent African novelist and critic, here addresses Nigeria's problems, aiming to challenge the resignation of Nigerians and inspire them to reject old habits which inhibit Nigeria from becoming a modern and attractive country. In this famous book now reprinted, he professes that the only trouble with Nigeria is the failure of leadership, because with good leaders Nigeria could resolve its inherent problems such as tribalism; lack of patriotism; social injustice and the cult of mediocrity; indiscipline; and corruption. This book focuses on urban development and planning in Nigeria by analyzing the nature and determinants of urban and regional planning strategies and outcomes in Rivers State, Nigeria. The book is organized into fourteen chapters. The first chapter focuses on population growth and the development of the Nigerian urban system. The second chapter traces the roots of Nigerian urban and regional planning system. The third chapter discusses the institutional framework for planning the evolving planni This unique collection of essays examines the environmental problems facing contemporary Nigeria. The relationship between environmental degradation and such social issues as poverty and pollution growth has been impressively analyzed. There is also a well-researched discussion on how government and citizens can work towards achieving sustainable development with long-term solutions to ecological disorders. This book provides a valuable resource for academics and professionals in the general area of environmental management as well as those searching for long-term solutions to Nigeria's particular ecological disorders. Nigeria seems to be in the news all of the time for something, be it regime changes, co-operation, internal strife or oil policies. The most populous country in Africa and the largest in area in the West African state, Nigeria was an early twentieth century colony that became an independent nation in 1960. A country of great diversity because of the many ethnic, linguistic, and religious groups that live within it borders, Nigeria is also a country with a long past. This book brings together current issues and a detailed historical background. This is a timely book on political transition to civil rule in Nigeria. The socio-political and economic ramifications of the transfer of power to an elected civilian administration and the political chaos resulting from the continued uncertainties surrounding the transition program are examined. Some of the topics which are touched upon are the relationship between the state, capital accumulation, democratic forces, the characteristic political manipulation by the military and the attempt to hold on to power despite demand for civilian democratic rule, the problem of military intervention to the question of national integration, and the core problems of Nigerian economic management and the alternatives for effective management of the Nigerian economy in the Third Republic. Understanding the political economy of Nigeria is needed to reveal the root causes of its many ethnic, religious, economic, and political problems and address them for the long term. The pressures now weighing on Nigeria could literally fracture the state along deep fault lines if rampant corruption and partisanship continues. As mutually important partners for both of our interests in Africa, the United States should assist in specific but indirect ways to help Nigerians overcome their political economic problems. Within such assistance, the role of the U.S. military is particularly delicate but needed through focused aid to specific programs and sharing of expertise, all best managed through employing units that are regionally aligned to Nigeria or West Africa. This book explores the disturbing dimensions of the problem of insecurity in Nigeria, such as herdsmen violence, the Boko Haram insurgency, cybercrime, militancy in the Niger Delta, communal conflict and violence, as well as police corruption. It offers a comprehensive discussion of the theoretical foundations of internal security, the threats to internal security, the role of formal and informal agencies in internal security management and the challenges of internal security management. The past few years have been very traumatic ones for many Nigerians. With the exception of those in power or close to the seat of power, the changes of 1998 were a welcome relief given the tyranny and repression that the country had suffered under General Abacha. With many people in prison and more in exile, the death of Abacha was received with a sigh of relief. Many observers have seen the resilience that has come to signify the strength and potential of this once 'giant of Africa', as well as the destruction and the socio-political and economic decay of the past decades. The Nigerian people have

endured the exploitation of their rights due to the lack of democratic leadership, and with this in mind, they have been called to attention to fight for their country.
