The Top 50 Sustainability Books Dec 13 2021 This unique title draws together in one volume some of the best thinking to date on the pressing social and environmental challenges we face as a society. These are the Top 50 Sustainability Books as voted for by the University of Cambridge Programme for Sustainability Leadership's alumni network of over 3,000 senior leaders from around the world. In addition to profiles of all 50 titles, many of the authors share their most recent reflections on the state of the world and the ongoing attempts by business, government and civil society to create a more sustainable future. Many of these authors have become household names in the environmental, social and economic justice movements - from Rachel Carson, Ralph Nader and E.F. Schumacher to Vandana Shiva, Muhammad Yunus and Al Gore. Others, such as Aldo Leopold, Thomas Berry and Manfred Max-Neef, are relatively undiscovered gems, whose work should be much more widely known. By featuring these and other seminal thinkers, The Top 50 Sustainability Books distills a remarkable collective intelligence - one that provides devastating evidence of the problems we face as a global society, yet also inspiring examples of innovative solutions; it explores our deepest fears and our highest hopes for the future. It is a must-read for anyone who wants to tap into the wisdom of our age.

Keep Your Fork Sep 29 2020 A woman was diagnosed with a terminal illness and given three months to live. She asked her Pastor to come to her home to discuss her final wishes. She told him which songs she wanted sung at her funeral, and what scriptures she wanted read, and which outfit she wanted to be buried in. Then she said, -One more thing... I want to be buried with a fork in my hand.- The woman explained, -In all my years of attending church socials and potluck dinners, I always remember that when the dishes of the main course were being cleared, someone would inevitably say to everyone, 'Keep your fork.' It was my favorite time of the dinner, because I knew something better was coming, like velvety chocolate cake or deep dish apple pie- something wonderful. So, I want people to see me there in that casket with a fork in my hand and wonder, -What's with the fork?- Then, I want you to tell them, -Keep your fork, because the

best is yet to come.- This story, attributed to Roger William Thomas (1996, A 3rd Serving of Chicken Soup for the Soul), touched our hearts and prompted us to capture our own real-life stories of what people think -the best is yet to come- looks like. We hope the 17 stories between the front and back covers of Keep Your Fork will be thought-provoking and inspirational, and that you'll understand why we ask you to: -Keep Your Fork. The best is yet to come.-

The Fork, the Witch, and the Worm Oct 31 2020 Relish the incomparable imagination of Christopher Paolini in this thrilling collection of stories based in the world of Eragon and the internationally bestselling Inheritance Cycle. A wanderer and a cursed child. Spells and magic. And dragons, of course. Welcome back to the world of Alagaësia. It's been a year since Eragon departed Alagaësia in search of the perfect home to train a new generation of Dragon Riders. When a vision from the Eldunari, unexpected visitors, and an exciting Urgal legend surface, Eragon is faced with a much-needed distraction that may lead to a new perspective. This volume features three original stories set in Alagaësia, interspersed with scenes from Eragon's own unfolding adventure. Included is an excerpt from the memoir of the unforgettable witch and fortune-teller Angela the herbalist . . . penned by Angela Paolini, the inspiration for the character, herself! Also includes four new pieces of original art by the author. "Christopher Paolini is a true rarity." --The Washington Post

Life Cycle Sustainability Assessment (LCSA) Feb 15 2022 Environmental Life Cycle Assessment (ELCA) that was developed about three decades ago demands a broadening of its scope to include lifecycle costing and social aspects of life cycle assessment as well, drawing on the three-pillar or 'triple bottom line' model of sustainability, which is the result of the development of the Life Cycle Sustainability Assessment (LCSA). LCSA refers to the evaluation of all environmental, social and

economic negative impacts and benefits in decision-making processes towards more sustainable products throughout their life cycle. Combination of environmental and social life cycle assessments along with life cycle costing leads to life cycle sustainability assessment (LCSA). This book highlights various aspects of life cycle sustainability assessment (LCSA).

Which Fork Do I Use with My Bourbon? Aug 09 2021 A good bottle of bourbon should be enjoyed in good company. During their travels in bourbon country and beyond to conduct tastings and seminars, entertainment experts Peggy Noe Stevens and Susan Reigler often heard the question, "How do I do this in my home?" This book is their definitive answer. *Which Fork Do I Use with My Bourbon?* offers a step-by-step guide to hosting a successful bourbon-tasting party -- complete with recipes, photos, and tips for beginners and experienced aficionados alike. From decorations to glassware, this one-stop resource will guide readers from the day they mail invitations to the moment they welcome guests through the door. Alongside their favorite snack, entrée, dessert, and cocktail recipes, Stevens and Reigler offer expert tips and tricks from the trade on how to set up a bar, arrange tables, and pair recipes with specific bourbons. Once readers are ready, Stevens and Reigler move on to advanced pairings for the bourbon foodie and present two innovative examples of tasting parties -- a bourbon cocktail soiree and, of course, the traditional Kentucky Derby party. Inspired by the hosting traditions of five Kentucky distilleries, this book promises to motivate bourbon lovers to start their own bourbon-tasting traditions and to expand the expertise of longtime bourbon enthusiasts.

Harley-Davidson Sportster Performance Handbook, 3rd Edition Apr 05 2021 For Harley-Davidson aficionados, the very name Sportster conjures an image of a fire-breathing mechanical beast scorching the world's tarmac image the Sportster itself

often does not live up to. Straight from the factory, in its standard form, the Sportster routinely proves an entry-level motorcycle providing a relatively tame ride. This book aims to change all that and to show every Sportster rider how to free the beast in his or her bike. With expert, detailed advice on the proper mechanical massaging and plenty of helpful diagrams and photos this updated, third edition of Buzz Buzzelli's best-selling handbook shows how the Sportster can be transformed into the superbike of old. Including a history of the Sportster from its birth in 1957 to the recent introduction of a new engine (only the third in its long life), this book has everything it takes to open up the gates of hell and give the Sportster its head.

Old Lady on the Trail Mar 24 2020 Adventure on National Scenic Trails does not need to end when one is old. Not beginning long-distance hiking until age 60, Mary takes us with her on her trail journeys to experience encounters with the beauty of wilderness from the Eastern ranges of the Appalachian Trail, the challenges of desert, snow, granite and thick forests of the Pacific Crest Trail, and the rugged and the remote grandeur of the Continental Divide Trail. Along the way, she introduces the Trail Community. Hikers of many ages and walks of life labeled with colorful monikers called trail names, and trail angels, planned and total surprises, grace her journey. Bears, moose, deer, coyotes, turkey vultures, hawks, eagles, owls, pronghorn, and endless supplies of squirrels and chipmunks share the world through which she walked. Everyday challenges of completing seemingly endless miles, encountering new adventures, sometimes with friends and much of the time solo, brought Mary to the first pages of this book on a glorious day sighting two grizzly bears and completing long-distance hiking's Triple Crown at age 76. Throughout this inspirational journey, Mary shares the perspective of an aging

adult. Challenges of failing body parts add drama and obstacles to be overcome like rocks in the trail or adapted to like the trails that wind slowly up steep mountains. Come along and experience long trails with the Old Lady on The Trail.

Clever as Serpents May 18 2022 Centuries ago Thomas Aquinas remarked that there can be no joy in life if there is no joy in one's work. Drawing upon the seminal insights of Rene Girard, Clever as Serpents confronts this timeless issue of finding peace in one's work and offers practical guidance on how people, acting together, can cultivate virtuous business. Clever as Serpents provides ethical insight in business life, the job market, and office politics, revealing that business culture, while often corrupt, can be transformed through the practice of asceticism. It suggests that instead of renouncing worldly comforts and retreating to a monastery, business asceticism embraces and masters the discomforts of business life through disciplined and unique approach to the rigors of the competitive marketplace. Clever as Serpents is divided into two parts - theory and strategy. Chapters one through five deal with a unique approach to management theory and the behavior of financial markets. It first examines the myths that hide the reality of the marketplace. Chapter two examines the myth of freedom; chapter three, the myth of competition. With these myths exposed, chapters four and five examine the secret of the marketplace through the theories of "borrowed desire" and the management complex. Chapters six through ten deal with practical techniques for dealing with the jungle of office politics. Chapter six relates the theory of "borrowed desire" to the dynamics of office gossip. Chapters seven through nine offer practical tips on surviving office politics, becoming successful, and redeeming the marketplace through ethical action. For the many people who experience the

workplace as frustrating or unfair, struggle with office politics - as well as the question of whether their workday lives have any religious significance or spiritual depth - this work provides concrete suggestions for practicing an ethics of survival, of success, and of service. Jim Grote works in stewardship and development for a Roman Catholic archdiocese. He has taught business ethics and philosophy at several colleges and universities. Co-author of *Theology and Technology*, he has written articles for the *Catholic Worker*, *Church*, *Cistercian Studies Quarterly*, *Cross Currents*, and *Spirituality Today*. John McGeeney, an attorney for a financial services company, has worked in securities law for a Fortune 500 company, and for a large social service organization in New York City. "

Free Outside Dec 21 2019 Jeff Garmire was living the fast paced life of a successful young professional when he gave it all up to embark on the adventure of a lifetime. He set out to become only

the fifth person to thru-hike the Pacific Crest Trail, Appalachian Trail and Continental Divide Trail in a single calendar year. Finishing the 8,000 mile Calendar Year Triple Crown would be an adventure of a lifetime. The journey was riddled with inclement weather, shady characters, wildlife attacks, and injuries. Along the way Jeff swam frozen rivers, encountered wildfires and battled his own mind. He offers a captivating story of strength and courage. Hiking through some of the most remote areas in America, Jeff is continually overwhelmed by the kindness and generosity of strangers. Free Outside is the fascinating story of Jeff Garmire's journey along the national historic trails that define wild America. Finishing would take everything he had, and he was willing to give it all.

The Zeronauts Aug 29 2020 "In the last century, astronauts (meaning space sailors) launched into the heavens, in search of new worlds to colonize-their adventures helping to catalyze the evolution of everything from non-stick frying pans and minicomputers to satellite telecommunications. Their work forced our species to recognize that our Earth is a very rare planet indeed and our only home for the foreseeable future. Now a new wave of explorers, adventurers and entrepreneurs is pioneering novel ways to create wealth in tune withthe twenty-first century reality of a human population pushing towards ten billion people by mid-century and with key elements of the planet's biosphere already coming apart at the seams. These are the Zeronauts.

Featuring contributions by twenty-five of the world's leading innovators and drawing on interviews and surveys of many more, the book showcases the pioneers that are at the cutting edge of the global sustainability movement, which the author, John Elkington, has helped create and lead over several decades. Elkington introduces the emerging disciplines of zero-impact design, engineering and management—through the personal experiences and reflections of the leading practitioners putting us on a path to a zero impact economy: zero risk zero emissions zero pollution and waste zero biodiversity loss zero population growth. *Leading Zeronauts* explain how they came to wake up to the challenges they speak about the mistakes they have made along the way and the lessons they have learned in the process offering their advice on how we can get others to the same point in terms of thinking and action. From this, Elkington distils a concise set of rules for success. Concluding with recommendations for governments, investors, innovators and educators, the book shares the lessons learned from scores of people worldwide who are helping define the scale of the challenges our species now faces and, crucially, developing and deploying at scale some of the solutions that will provide the building-blocks of tomorrow's economies and the foundations for some of the future's greatest fortunes. A Public Role for the Private Sector Feb 27 2023 Increasing economic competition combined with the powerful threat of transnational activism are pushing firms to develop new political strategies. Over the past decade a growing number of corporations have adopted policies of industry self-regulation—corporate codes of conduct, social and environmental standards, and auditing and monitoring systems. *A Public Role for the Private Sector* explores the phenomenon of industry self-regulation through three different cases—environment, labor, and information privacy—where corporate leaders appear to be converging on industry self-regulation as the appropriate response to competing pressures. Political and economic risks, reputational effects, and learning within the business community all influence the adoption of a self-regulatory strategy, but there are wide variations in the strength and character of it across industries and issue areas. Industry self-regulation raises significant questions about the place of the private sector in regulation and governance, and the accountability, legitimacy and power of industry at a time of rapid globalization.

Drinking Coffee with a Fork Jul 28 2020 Bucci and Brown chronicle Carlton's extraordinary and improbable '72 season. Traded to the lowly, last- place Philadelphia Phillies, Carlton

overcame insurmountable odds. For a Phillies team that won just 59 games, he posted 27 wins, a record 46 percent, and in so doing captured his first of four Cy Young Awards in a career that culminated in his induction into the Hall of Fame.

Corporate Social Responsibility Oct 23 2022 This unique collection of international papers integrates CSR theory, research and practice. The book examines the challenges of regulating and reporting CSR application, exploring issues concerning all agencies involved. Recommendations for performance enhancement are complimented by insightful enterprise and case studies on CSR sustainability.

The Triple Bottom Line Dec 25 2022 The concept of the 'triple bottom line' (TBL) - the idea that business activity can simultaneously deliver financial, social and environmental benefits - was introduced in the early 1990s. A decade on, *The Triple Bottom Line: Does it All Add Up?* brings together the world's leading experts on corporate responsibility to assess the implications, benefits and limitations of the TBL. This collection provides a review of what has already been achieved in stimulating change in corporate culture and bringing businesses to an appreciation of the importance and benefits of corporate social responsibility (CSR) and good environmental performance. It further explores the conceptual and practical limits of the metaphor of the TBL and sets out what can be achieved through regulation and legislation, presenting detailed professional procedures for environmental accounting and management and social auditing. The contributors' wealth of experience and insight provides a vivid picture of how much attention is now being focused by businesses on delivering more than just financial targets, and they clearly outline the necessary steps for successfully continuing along this trajectory.

Food Supply Chain Management and Logistics Jan 26 2023
WINNER: ACA-Bruel 2015 - Prix des Associations With the growth of the food industry come unique logistics challenges, new supply

routes, demand dynamics and investment re-shaping the future of the food logistics industry. It is therefore important for the food industry to innovate both with regards to demand management and sustainability of food sources for a growing population. *Food Supply Chain Management and Logistics* provides an accessible and essential guide to food supply chain management, considering the food supply chain from 'farm to fork'. Samir Dani shows the reader how to stay ahead of the game by keeping abreast of global best practice, harnessing the very latest technology and squeezing efficiency and profit from increasingly complex supply chains. *Food Supply Chain Management and Logistics* covers essential topics in food supply chain management, including: food supply chain production and manufacturing; food logistics; food regulation, safety and quality; food sourcing; food retailing; risk management; food innovation; technology trends; food sector and economic regeneration; challenges in International food supply chains; triple bottom-line trends in the food sector; food security and future challenges. Winner of the 2015 Prix des Associations, this book has been commended for its comprehensive coverage of the design, governance, supporting mechanisms and future challenges in the food supply chain.

The Power of Unreasonable People Jul 20 2022 The playwright George Bernard Shaw once said "The reasonable man adapts himself to the world; the unreasonable one persists in trying to adapt the world to himself. Therefore, all progress depends on the unreasonable man." Highly unconventional capitalists and entrepreneurs who are solving some of the world's great economic, social, and environmental problems are, in the process, disrupting existing industries, value chains, and business models, and replacing them with fast-growing markets in all corners of the world. *The Power of Unreasonable People* argues that leaders and decision-makers can gain insight into the future of market opportunity from the mindset and strategies of this new type of

entrepreneur. The book offers an on-the-ground look at social entrepreneurs by identifying a new breed of "unreasonable" entrepreneurs, explaining how their enterprises have been built, exploring the impact of their work on future market risks and opportunities, and finally highlighting lessons for tomorrow's leaders. Incumbents who recognize the value of investing in, partnering with, and learning from these entrepreneurial operations will be better positioned to adapt to the disruption and adopt new business practices. John Elkington is the Founder, Chief Entrepreneur, and Non-Executive Director of the international consultancy SustainAbility. Pamela Hartigan is Managing Director for the Schwab Foundation for Social Entrepreneurship.

The Sleepwalkers Feb 03 2021 One of The New York Times Book Review's 10 Best Books of the Year Winner of the Los Angeles Times Book Prize (History) *The Sleepwalkers: How Europe Went to War in 1914* is historian Christopher Clark's riveting account of the explosive beginnings of World War I. Drawing on new scholarship, Clark offers a fresh look at World War I, focusing not on the battles and atrocities of the war itself, but on the complex events and relationships that led a group of well-meaning leaders into brutal conflict. Clark traces the paths to war in a minute-by-minute, action-packed narrative that cuts between the key decision centers in Vienna, Berlin, St. Petersburg, Paris, London, and Belgrade, and examines the decades of history that informed the events of 1914 and details the mutual misunderstandings and unintended signals that drove the crisis forward in a few short weeks. Meticulously researched and masterfully written, Christopher Clark's *The Sleepwalkers* is a dramatic and authoritative chronicle of Europe's descent into a war that tore the world apart.

The Fundamentals of Digital Fashion Marketing Jun 19 2022 *The Fundamentals of Digital Fashion Marketing* introduces and explores contemporary digital marketing practices within the

fashion industry. Clare Harris clearly explains key digital marketing strategies and examines and illustrates their role in fashion through exciting and memorable industry examples. Marketing practices covered include online marketing, social media, video, mobile technologies, in-store technologies, augmented reality and digital spaces. The text features interviews and case studies from some of fashion's biggest brands and most cutting-edge marketing companies, while also promoting active learning through engaging activities and exercises. This all combines to create a book that will inform, stimulate and inspire the next generation of creative marketers.

The Breakthrough Challenge Sep 22 2022 The world's most forward-looking CEOs recognize the real challenge facing business today: a fundamental shift in the nature of commerce. While sustainability programs, government action, and nonprofits are all parts of the solution, CEOs and other leaders must focus on social, environmental, and economic benefit—not only because it will make the world a better place, but because it will ensure lasting profitability and success in the business climate of tomorrow. The Breakthrough Challenge is both an inspiring call-to-action and a guide for this transformation, based on the work of The B Team, a major initiative uniting leaders in sustainability. As a founding advisor and member of The B Team, John Elkington and Jochen Zeitz map out an agenda for change. The most important goal for businesses must be redefining the bottom line to account for true long-term costs throughout the supply chain. To achieve this, leaders must rethink everything: what counts on balance sheets, how to incentivize performance, who does what in the C-suite, and even what inspires us. The Breakthrough Challenge draws on over 100 exclusive interviews to show this shift in action, sharing the pioneering work of leaders such as Paul Polman, CEO of Unilever; Arianna Huffington, founder and CEO of The Huffington Post; Peter Brabeck-Letmathe, chairman of the Nestlé Group; and Linda Fisher, pioneering

Chief Sustainability Officer at DuPont, among many others. Change-as-usual strategies are not enough to move business from breakdowns to breakthroughs. The Breakthrough Challenges shows leaders how to achieve a true transformation and refocus the definition of profitability on the lasting wellbeing of people and planet—for the lasting success of their business.

The Triple Bottom Line Aug 21 2022 The Triple Bottom Line is the groundbreaking book that charts the rise of sustainability within the business world and shows how and why financial success increasingly goes hand in hand with social and environmental achievement. Andrew Savitz chronicles both the real problems that companies face and the innovative solutions that can come from sustainability. His is a hard-line approach to bottom-line fundamentals that is re-making companies around the globe.

Green Swans Mar 28 2023 Even leading capitalists admit that capitalism is broken. Green Swans is a manifesto for system change designed to serve people, planet, and prosperity. In his twentieth book, John Elkington—dubbed the “Godfather of Sustainability”—explores new forms of capitalism fit for the twenty-first century. If Nassim Nicholas Taleb’s “Black Swans” are problems that can take us exponentially toward breakdown, then “Green Swans” are solutions that take us exponentially toward breakthrough. The success—and survival—of humanity now depends on how we rein in the first and accelerate the second. Green Swans draws on Elkington’s firsthand experience in some of the world’s best-known boardrooms and C-suites. Using case studies, real-world examples, and profiles on emergent technologies, Elkington shows how the weirdest “Ugly Ducklings” of today’s world may turn into tomorrow’s world-saving Green Swans. This book is a must-read for business leaders in corporations great and small who want to help their businesses survive the coming shift in global priorities over the next decade and expand their horizons from responsibility, through resilience, and onto regeneration.

The Skinnytaste Cookbook Feb 21 2020 Get the recipes everyone is talking about in the debut cookbook from the wildly popular blog, Skinnytaste. Gina Homolka is America's most trusted home cook when it comes to easy, flavorful recipes that are miraculously low-calorie and made from all-natural, easy-to-find ingredients. Her blog, Skinnytaste is the number one go-to site for slimmed down recipes that you'd swear are anything but. It only takes one look to see why people go crazy for Gina's food: cheesy, creamy Fettuccini Alfredo with Chicken and Broccoli with only 420 calories per serving, breakfast dishes like Make-Ahead Western Omelet "Muffins" that truly fill you up until lunchtime, and sweets such as Double Chocolate Chip Walnut Cookies that are low in sugar and butter-free but still totally indulgent. The Skinnytaste Cookbook features 150 amazing recipes: 125 all-new dishes and 25 must-have favorites. As a busy mother of two, Gina started Skinnytaste when she wanted to lose a few pounds herself. She turned to Weight Watchers for help and liked the program but struggled to find enough tempting recipes to help her stay on track. Instead, she started "skinny-fying" her favorite meals so that she could eat happily while losing weight. With 100 stunning photographs and detailed nutritional information for every recipe, The Skinnytaste Cookbook is an incredible resource of fulfilling, joy-inducing meals that every home cook will love.

Greening Health Care Nov 24 2022 This volume examines the intersections of health care and environmental health, both in terms of traditional failures and the revolution underway to fix them. Authored by one of the pioneers in health care's green movement, it presents practical solutions for health care organizations and clinicians to improve their environments and the health of their communities.

Race Tech's Motorcycle Suspension Bible Mar 04 2021 Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension

tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

A Book of Emblems Oct 11 2021 Andrea Alciati's *Emblematum Liber* was an essential work for every writer, artist and scholar in post-medieval Europe. First published in 1531, this illustrated book was a collection of emblems, each consisting of a motto or proverb, a typically enigmatic illustration, and a short explanation. Most of the emblems had symbolic and moral applications. Scholars depended on Alciati's book to interpret contemporary art and literature, while writers and artists turned to it to invest their work with an understood didactic sense. This new edition of the *Emblematum Liber* includes the original Latin texts, highly readable English translations, and the illustrations belonging to each of the 212 emblems. The editor's introduction explains both the importance and the cultural contexts of Alciati's book, as well as its innumerable artistic applications. For instance, close study of the emblems reveals--to cite only two examples--why statues of lions are traditionally placed before government buildings, and what underlying political message was conveyed by innumerable equestrian portraits during the Baroque era. The collection includes as an appendix the formerly

suppressed emblem, "Adversus Naturam Peccantes," accompanied by a translation of the learned commentary applied to it by Johann Thuilus in 1612. An extensive bibliography points the student to scholarly research specifically dealing with artistic applications of Alciati's emblems. Altogether, this new edition of Alciati's seminal work is an essential tool for modern students of the liberal arts.

Forks Over Knives Jun 26 2020 The #1 New York Times bestseller answers: What if one simple change could save you from heart disease, diabetes, and cancer? For decades, that question has fascinated a small circle of impassioned doctors and researchers—and now, their life-changing research is making headlines in the hit documentary Forks Over Knives. Their answer? Eat a whole-foods, plant-based diet—it could save your life. It may overturn most of the diet advice you've heard—but the experts behind Forks Over Knives aren't afraid to make waves. In

his book *Prevent and Reverse Heart Disease*, Dr. Caldwell Esselstyn explained that eating meat, dairy, and oils injures the lining of our blood vessels, causing heart disease, heart attack, or stroke. In *The China Study*, Dr. Colin Campbell revealed how cancer and other diseases skyrocket when eating meat and dairy is the norm—and plummet when a traditional plant-based diet persists. And more and more experts are adding their voices to the cause: There is nothing else you can do for your health that can match the benefits of a plant-based diet. Now, as *Forks Over Knives* is introducing more people than ever before to the plant-based way to health, this accessible guide provides the information you need to adopt and maintain a plant-based diet. Features include: Insights from the luminaries behind the film—Dr. Neal Barnard, Dr. John McDougall, *The Engine 2 Diet* author Rip Esselstyn, and many others Success stories from converts to plant-based eating—like San’Dera Prude, who no longer needs to medicate her diabetes, has lost weight, and feels great! The many benefits of a whole-foods, plant-based diet—for you, for animals and the environment, and for our future A helpful primer on crafting a healthy diet rich in unprocessed fruits, vegetables, legumes, and whole grains, including tips on transitioning and essential kitchen tools 125 recipes from 25 champions of plant-based dining—from Blueberry Oat Breakfast Muffins and Sunny Orange Yam Bisque to Garlic Rosemary Polenta and Raspberry-Pear Crisp—delicious, healthy, and for every meal, every day.
