Some might say we are what we inherit. Others may suggest that one ought to ponder over where we come from, claiming that it serves as a moral compass and guides us on our journey through life. Our lives would scarcely be interesting if we were able to predict the details of our destination. Instead one should savour the experiences and embrace the journey. Amelia Binneman was a farmer's daughter, a Boer woman whose light shone brightly. From the outset she had a clear perception of the life she wanted, a life etched in her dreams and expectations. One night of passion during her final year at school changed everything. All the dreams she had and the pledges she ever made, were in jeopardy. It prompted her into leaving the Cape Colony and joining her parents on a journey to Springfontein, a remote village in the Republic of the Orange Free State, where they began farming. The story is told against the background of the Anglo Boer War in 1899 and describes Amelia's journey of survival, taken by women and children. It tells of the gold rush on the Witwatersrand and how the leaders chose war while grasping at greed, allowing the option of peace to pass them by. It explores the lives of ordinary people who were caught up in the turmoil of this war, some of whom were incarcerated in refugee camps. It tells of an intrepid group of people, who abandoned their farm to escape the dominance of the British, and who were given refuge by a Koranna tribe in a settlement near the Basotholand border. It is here that Amelia meets the benevolent Chief Thaba and the intimidating Pulani, a sangoma

with whom she forges a relationship and discovers a remarkable cure for one of the many ailments that ravaged the lives of children during the war. After learning that her mother Helena and companion Mieta were captured and relocated to a new camp at Norvals Pont, Amelia and her son Daniel attempt a daring mission to rescue them. The story describes the events that led Amelia's father Christoffel Binneman, to assist Generals De la Rey, De Wet and others, before they assembled at Melrose House in Pretoria on the 31st May 1902, to sign the Peace Treaty of Vereeniging. It describes the futility of this war. 'N Boek wat gebaseer is op die radio program "Vir oupa n ouma" oor boererate. Issues for Nov. 1957- include section: Accessions. Aanwinste, Sept. 1957- As jong seun het Danie Smuts met 'n blikkie agter vee in die veld aangeloop om kuttels te versamel vir 'n konkoksie om maselspasie se simptome te verlig. Min het hy toe geweet dat hy eendag die legendariese aanbieder van 'n gewilde Springbok Radio-program sou word waarin die volk kure vir allerlei kwinte en kwale deel. Toe Boererate - 'n keur van die tradisionele advies wat luisteraars oor die jare vir Smuts se radioprogram ingestuur het - in 1989 verskyn, was dit onmiddellik 'n treffer. Sedertdien het dit 'n besondere boek uit sirkulasie verdwyn, maar die aanvraag daarvoor nie. 'n Byna vergete era in die Afrikaanse kultuurgeskiedenis word in herinnering geroep deur die vreemdsortige en dikwels skreeusnaakse wenke. Die volgende stappe word byvoorbeeld aanbeveel om griep te bekamp: 1. Plaas 'n bottel whiskey en 'n glas saam met 'n brandende kers langs jou bed. 2. Klim in die bed, maak seker jy lê onder baie komberse, en begin geleidelik aan die whiskey teug. 3. Sodra jy twee kerse sien, sit die glas neer, plaas die prop terug op die whiskey-bottel, blaas al twee kerse dood en gaan slaap. Maar wees gewaarsku: Dat die griep binne 24 uur sal verdwyn, word gewaarborg, maar jy mag dalk 'n hoofpyn oorhou. This book examines the shifting moral and spiritual lives of white Afrikaners in South Africa after apartheid. The end of South

Africa's apartheid system of racial and spatial segregation sparked wide-reaching social change as social, cultural, spatial and racial boundaries were transgressed and transformed. This book investigates how Afrikaners have mediated the country's shifting boundaries within the realm of religion. For instance, one in every three Afrikaners used these new freedoms to leave the traditional Dutch Reformed Church (NGK), often for an entirely new religious affiliation within the Pentecostal or Charismatic churches, or New Religious Movements such as Wiccan neopaganism. Based on long-term ethnographic fieldwork in the Western Cape area, the book investigates what spiritual life after racial totalitarianism means for the members of the ethnic group that constructed and maintained that very totalitarianism. Ultimately, the book asks how these new Afrikaner religious practices contribute to social solidarity and integration in a persistently segregated society, and what they can tell us about racial relations in the country today. This book will be of interest to scholars of religious studies, social and cultural anthropology and African studies.

NSTA Best STEM Book Here is the story of Ben Franklin's first invention, his journey through the scientific method, and the surprising successes that result when you're willing to make mistakes. Every inventor has to start somewhere, and one of the greatest innovators in our history was no exception. Ben Franklin developed his first invention while doing what he loved best: swimming! Barb Rosenstock's rhythmic, whimsical style is the perfect complement to S. D. Schindler's pen and ink and watercolor illustrations. Together they recreate history in an engaging and unique way. Both author and illustrator worked closely with Franklin experts, and the book includes Franklin quotes, an extensive author's note, timeline, and bibliography. There is intensified interest in designing information and communication technologies (ICTs) that respond to ways of doing, knowing, and saying that differ from those that dominate in producing ICTs and, in particular, to 'traditional' or

'indigenous' knowledges. ICT endeavours for indigenous or traditional knowledges (ITK) vary. Some aim to extend ITK digitally and others use ICTs to improve the economic and/or political situation of marginalised groups. This book presents themes that arise in designing to respond to ITK in different cultural, social, physical, and historical contexts. North Sea Water in My Veins is a quest for the reconstruction of an indigenous or native spirituality of the Low Countries and covers pre-Christian material from the Netherlands, Belgium and the region just across the German border. Seeking out and documenting ancient gods and goddesses, practices and traditions, this book asks the question: is there enough material for such a reconstruction? The conclusion is a resounding yes! Zadeh's fuzzy set theory incorporates the impreciseness of data and evaluations, by imputting the degrees

by which each object belongs to a set. Its success fostered theories that codify the subjectivity, uncertainty, imprecision, or roughness of the evaluations. Their rationale is to produce new flexible methodologies in order to model a variety of concrete decision problems more realistically. This Special Issue garners contributions addressing novel tools, techniques and methodologies for decision making (inclusive of both individual and group, single- or multi-criteria decision making) in the context of these theories. It contains 38 research articles that contribute to a variety of setups that combine fuzziness, hesitancy, roughness, covering sets, and linguistic approaches. Their ranges vary from fundamental or technical to applied approaches. Maaya Kisaragi, 16 years old, finally confessed to her crush...only to be flatly rejected and ridiculed on social media after. To make matters worse, the most popular guy in her grade, Chigira-kun, overheard her despondent muttering about the whole thing. But instead of making fun of her, he comforts her...and proposes an odd solution to her heartbreak!
