Essays om filipinsk litteratur Children of the Mists is a story of enduring love. Set in the 1800s, life on Sardinia had barely changed since the time of the Caesars. Two families, the Sannas and the Canus, are united by friendship and honour; love and laughter; joy and promises; omens and superstitions; youth and experience transcend generations. However, for Raffaella and Antonio, their passionate love becomes entangled with revenge. Death changes devotion. Promises are forgotten. Vendettas cannot be ignored. Ambition clouds judgments. Antonio and Raffaella were promised to each other, nothing would keep them apart, not even family. Committed to each other, they fight for their love against all odds... Children of the Mists is a gripping journey back in time that will make the perfect addition to any romance lover's collection. The refreshed insights into early-imperial Roman historiography this book offers are linked to a recent discovery. In the spring of 2014, the binders of the archive of Robert Marichal were dusted off by the ERC funded project PLATINUM (ERC-StG 2014 n°636983) in response to Tiziano Dorandi's recollections of a series of unpublished notes on Latin texts on papyrus. Among these was an in-progress edition of the Latin rolls from Herculaneum, together with Marichal's intuition that one of them had to be ascribed to a certain 'Annaeus Seneca'. PLATINUM followed the unpublished intuition by Robert Marichal as one path of investigation in its own research and work. Working on the Latin P.Herc. 1067 led to confirm Marichal's intuitions and to go beyond it: P.Herc. 1067 is the only extant direct witness to Seneca the Elder's Historiae. Bringing a new and important chapter of Latin literature arise out of a charred papyrus is significant. The present volume is made up of two complementary sections, each of which contains seven contributions. They are in close dialogue with each other, as looking at the same literary matter from several points of view yields undeniable advantages and represents an innovative and fruitful step in Latin literary criticism. These two sections express the two different but interlinked axes along which the contributions were developed. On one side, the focus is on the starting point of the debate, namely the discovery of the papyrus roll transmitting the Historiae of Seneca the Elder and how such a discovery can be integrated with prior

knowledge about this historiographical work. On the other side, there is a broader view on early-imperial Roman historiography, to which the new perspectives opened by the rediscovery of Seneca the Elder's Historiae greatly contribute.
