Marine Insurance Feb 02 2021
This authoritative work forms a comprehensive examination of the legal and historical context of marine insurance, providing a detailed overview of the events and factors leading to its codification in the Marine Insurance Act 1906. It investigates the development of the legal principles and case law that underpin the Act to reveal how successful this

codification truly was, and to demonstrate how these historical precedents remain relevant to marine insurance law to this day.

Perspectives on International Marketing - Re-issued (RLE International Business) Jan 04 2021 Marketing strategy is constantly adapting in the changing environment of International Business. This book draws together an eminent and international body

of researchers to analyse recent changes in world markets and marketing practices. It analyses, codifies and challenges existing literature on the subject; it offers industry specific studies of international marketing practices and their relative successes; and it presents valuable research findings on the increasingly important markets of China and Japan. The book is a three-fold contribution to the study and practice of International Marketing. Blending empirical studies with critical theory, the collection sheds much desired light on this important and often-neglected area.
