**Tutankhamun, King of Egypt** Aug 29 2020 An innovative account of the life of Tutankhamun, the rediscovery of his existence, and the enduring impact of the finding of his tomb, by leading Egyptologist Aidan Dodson The spectacular discovery of Tutankhamun's tomb in 1922 has given him an afterlife that has all but eclipsed the young king's real career. This authoritative yet accessible book tells the story of Tutankhamun, from his own lifetime in the fourteenth century BC, down to modern times. It explores the various theories as to his parentage, his role in the 'counter-reformation' that followed the religious revolution of Akhenaten, and his premature death. It also looks at the monuments built during the king's reign, his key officials, and the arrangements made for his funeral. Moving forward in time, Tutankhamun, King of Egypt considers the way in which Tutankhamun was written out of official history. The story is then picked up again in the early nineteenth century AD when, with the first decipherment of hieroglyphs, Tutankhamun's name could once again be read, and the problem of his place in history considered by Egyptologists. Aidan Dodson traces possible solutions through the decades as more and more data came to light, culminating in the discovery of the king's tomb. Yet, dazzling as that discovery was, many matters regarding Tutankhamun remain obscure today, even with the aid of genetic data. Dodson also looks at how the discovery of Tutankhamun's tomb brought about the first of many outbreaks of "Tut-mania," and explores some of its manifestations. Richly illustrated in full color throughout, this fascinating book by a leading Egyptologist will be essential reading for anyone interested in the life and enduring legacy of ancient Egypt's most famous king.

**The Protevangelium of James** Aug 21 2022 This book is the first modern collection of studies on important aspects of the Protevangelium of James. The volume opens with three chapters on introductory questions, such as the canonical or apocryphal status of the Protevangelium in early Christianity, its date, author and provenance, and the way it adapted and developed earlier traditions about the birth of Jesus. The subsequent chapters first focus on the protagonists Mary and Joseph, after which they discuss the Jewish aspects of the Protevangelium, Salome's manual inspection of Mary, the place and nature of space in the Protevangelium, and the question of the text's consistency and coherence. The final two chapters discuss a series of annunciation scenes in Christian and Islamic literature, which are often heavily dependent on the Protevangelium, and the latter's reception in the Armenian Gospel of the Infancy. The Appendix looks at the Armenian apocryphal text entitled Script of the Lord's Infancy, a witness to the great popularity enjoyed in Armenia by the early Syriac apocryphal stories of Christ's birth and childhood. As has become usual, the volume concludes with an extensive bibliography and a detailed index.

**Is Japanese Related to Korean, Tungusic, Mongolic and Turkic?** Sep 22 2022 Where does Japanese come from? The linguistic origin of the Japanese language is among the most disputed questions of language history. One current hypothesis is that Japanese is an Altaic language, sharing a common ancestor with Korean, Tungusic, Mongolic and Turkic. But, the opinions are strongly polarized. Especially the inclusion of Japanese into this classification model is very much under debate. Given the lack of consensus in the field, this book presents a state of the art for the etymological evidence relating Japanese to Korean, Tungusic, Mongolic and Turkic. The different Altaic etymologies proposed in the scholarly literature are gathered in an etymological index of Japanese appended to this book. An item-by-item sifting of the evidence helps to hold down borrowings, universal similarities and coincidental look-alikes to a small percentage. When the remaining core-evidence is screened in terms of phonological regularity, the answer to the intriguing question is beginning to take shape.
